

## List of examples from Mr Nick Morley's Radiology Talk

14<sup>th</sup> April 2010

For patient confidentiality reasons, the pictures from the lecture cannot be put up on the website, but I thought with a list of examples, you may then be able to find images on the internet:

Chest X-ray:

- Right Upper Lobe Pneumonia
- Heart Failure (with interstitial oedema, pleural effusion and cardiomegaly)
- Pneumothorax
- Bilateral Hilar Enlargement
- Air under diaphragm
- Rib fractures
- Sail Sign (left lower lobe collapse)

Abdo X-ray:

- Sigmoid Volvulus
- Small Bowel obstruction
- Ascites
- Colitis
- Pneumobilia

Orthopaedics:

- Hip and femur
- Monteggia and Galeazzi fractures
- Colles' fracture
- Jones' fracture
- Cervical X-rays
